Jaipur, Rajasthan, India

## SUMMARY

I am an innovative Full Stack Developer with hands-on experience in building scalable web applications using the MERN stack. I am skilled in designing RESTful APIs and implementing responsive UIs. My passion lies in clean code and delivering smooth user experiences. With a focus on both frontend and backend integration, I excel at developing dynamic applications according to user needs.

## EXPERIENCE

### Full Stack Web Developer

01/2024 - Present

#### Freelancing

online

Freelance work focusing on full-stack development

- Designed and developed a full-stack Café Management System to streamline daily operations including order tracking, table management, inventory control, and staff scheduling
- Built the frontend using React.js and Tailwind CSS with a responsive UI for desktop and mobile
- Implemented backend REST APIs using Node.js and Express.js, with MongoDB for storing customer orders, menus, and inventory data

## EDUCATION

### Bachelor of Technology (General)(B.Tech)

08/2024 - 07/2028

#### Poornima University

Jaipur, India

## LANGUAGES

English

Advanced

Hindi

Native

## KEY ACHIEVEMENTS

### Optimized Web Applications

Increased application performance by 30%, enhancing user experience.

### Led Team Successfully

Led a team of 4 to deliver a project for event.

## SKILLS

Clean Code · CSS · Docker · GitHub ·

HTML · JavaScript · JWT · MongoDB ·

Next.js · OAuth · Python · React · Redux ·

REST · Tailwind · TypeScript · node.js ·

Node.js · Express.js

## PROJECTS

### Various Projects

01/2023 - Present

Remote

Various projects focusing on AI and real-time web applications

- Developed an AI-powered conversational chatbot using Next.js, Gemini Generative AI, HTML, and CSS
- Built a real-time chat web application using Node.js and WebSockets.io with a clean HTML/CSS/JS front end, enabling secure user authentication, one-on-one messaging, and responsive chat UI similar to WhatsApp.
- Developed an AI content generator using the Gemini API to create high-quality, context-aware text based on user prompts with Next.js for prompt handling and content delivery.
- Developed a task management app where users can create, edit, delete tasks, with features like pending tasks, completed tasks, responsive, modern UI.
- Created a password manager allowing users to save their passwords by typing website or email and password, with the ability to edit or delete the password using modern UI.
