SUMMARY

I am an innovative Full Stack Developer with hands-on experience in building scalable web applications using the MERN stack. I am skilled in designing RESTful APIs and implementing responsive UIs. My passion lies in clean code and delivering smooth user experiences. With a focus on both frontend and backend integration, I excel at developing dynamic applications according to user needs.

EXPERIENCE

Freelance fullstack Engineer

Freelance fullstack Engineer

📅 01/1970 01/1970   📍 Remote

Freelance work focusing on full-stack development

- Designed and developed a full-stack Café Management System to streamline daily operations including order tracking, table management, inventory control, and staff scheduling
- Built the frontend using React.js and Tailwind CSS with a responsive UI for desktop and mobile
- Implemented backend REST APIs using Node.js and Express.js, with MongoDB for storing customer orders, menus, and inventory data

EDUCATION

Bachelor of Technology (General)(B.Tech)

Poornima University

📅 08/2024 07/2028   📍 Jaipur, India

SKILLS

CSS	GitHub	HTML	JavaScript
JWT	MongoDB	Next.js	OAuth
Python	React	Redux	REST
Tailwind	TypeScript	WebSockets	
Node.js	Express.js	Next js	
Docker			

PROJECTS

Various Projects

📅 01/1970 01/1970   📍 Remote

Various projects focusing on AI and real-time web applications

- Developed an AI-powered conversational chatbot using Next.js, Gemini Generative AI , HTML, and CSS
- Built a real-time chat web application using Node.js and WebSockets with a clean HTML/CSS/JS front end. Enables secure user authentication, one-on-one messaging, and responsive chat UI similar to WhatsApp
- Developed an AI content generator using the Gemini API to create high-quality, context-aware text based on user prompts. Next.js for prompt handling and content delivery across various writing use cases
- Developed a task management app where user can create,edit, delete his task and it's as feature like pending tasks, completed tasks, responsive,modern ui etc.
- Password manager where user can save his password by typing website or email and password user can edit or delete the password with modern ui.
